

SPECIFICATION SHEET

Product Name: Recombinant COVID-19 Nucleocapsid Protein (COVID-19-N)

Catalog #: L10H001

SYNONYMS: Nucleocapsid, COVID-19-N, 2019-nCov-N, NPC-N, Novel coronavirus pneumonia Nucleocapsid.

Source: E. Coli **Species:** Novel coronavirus pneumonia

Molecular weight: 46.5KD (with an 6*his tag at the N-terminus)

Concentration: 1.3mg/ml

Lot #: L20200202

Purity : >90% by SDS-PAGE

Formulation : The Recombinant 2019-nCov-N is supplied in a 0.2um filtered concentrated solution contains PBS (pH 7.4) .

Application: ELISA; Positive Control; Immunogen; WB;

Storage & Expiration: Upon receipt, aliquot and store at <-20°C .for long term.
Avoid repeated freeze and thaw cycles.

DESCRIPTION: The recombinant 2019-nCoV Nucleocapsid Protein consists of the full-length protein 426 amino acids with a 6*his tag at the N-terminus and predicts a molecular mass of 46.5 kDa.

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES.
